Programs

BEST Education Foundation programs are varied, but all support the mission of the Foundation, which is to enrich education in the Garland ISD. The Foundation currently funds the following programs through corporate grants and donations from companies and individuals:

Grants-to-Teachers - A program that encourages teachers to develop creative and effective projects that benefit students in grades PreK - 12 that stimulate thought and enhance student learning. During the past year, GISD teachers received over \$100,000 in grants.

Paraprofessional Scholarships - This year, eight paraprofessionals will have up to \$250.00 in fees reimbursed. Educational choices can be college courses, STEM training (educational secretary certification), or attendance at the Texas Educational Secretaries Association (TESA) summer or fall conference.

Partners in Education (PIE) - PIE matches businesses and community groups to schools to provide tutoring, mentoring, in-kind donations, or other support.

School Grants - A program that provides funds for individual campuses to develop special programs that will benefit a large number of their students.

Student Scholarships -

Organizations and individuals who establish scholarships for the benefit of Garland ISD students may utilize the Foundation to manage their scholarship funds and assist in administration of those scholarships.

Teacher Scholarships - This year, eight teachers who are pursuing further or higher education, will have up to \$500.00 in tuition costs reimbursed by the Foundation. Teachers submit receipts detailing educational expenditures over the previous semester, and winners are selected via random drawings.
